TERMS OF SALE

1. This is a public auction and mail bid sale, conducted by PONTERIO & ASSOCIATES, INC. Subject to our consent, liberty for bidding by sellers and/or consignors is hereby reserved.
2. A 10% buyers charge will be added to the hammer price of each lot. This charge will be added to all invoices.
3. Subject to paragraph 8, all material shall be sold to the highest bidder as determined by the auctioneer. If any dispute arises during or immediately after the sale of a lot, the auctioneer shall have the right to recall the lot and put it up for sale again. In all cases, auctioneer's decision shall be final. For the bidder's protection, NO "UNLIMITED" or "BUY" BIDS WILL BE ACCEPTED. Bids are to be made in U.S. currency only.
4. Terms of this sale are strictly cash with payment due immediately upon receipt of invoice. Payment by check must be payable in U.S. currency only and drawn on a U.S. Bank. NO credit card purchases will be accepted. Title to all lots remains with consignor until paid in full.
5. Minors are expressly forbidden to bid in this sale.
6. Floor bidders and mail bidders not known to us must furnish satisfactory credit references, sufficiently in advance of the sale to allow for checking, or a deposit equal to 25% of their total bids for that session(s) before such bids can be accepted. Deposits submitted will be applied to purchases and any unused portion of such deposit will be promptly refunded.
7. All bids must be per lot as numbered in this catalogue. No lots will be broken. Lots will be sold in their numbered sequence unless auctioneer directs otherwise.
8. We reserve the right to withdraw any lot prior to the sale and to open the bidding on any lot at a reasonable price.
9. All items in this catalogue are guaranteed to be genuine unless specifically stated otherwise in the lot description. Claims to the contrary must be made in writing within three days after receipt of the lot. Any returned lot must be intact and in its original unopened holder. No lot may be returned without prior written consent. In no event may any lot be returned after thirty (30) days from the date of sale. LATE REMITTANCE FOR PURCHASES CONSTITUTES JUST CAUSE TO ABROGATE ALL RETURN PRIVILEGES FOR ANY REASON.
10. Grading is a subjective description in the opinion of the cataloguer, as to the state of preservation of a particular coin or lot. The term "Proof" or "Specimen" is used to describe a method of manufacture, and not a grade or condition. Such terms are the opinion of the cataloguer and shall be deemed to be part of the description and not an attribution. No warranty, whether expressed or implied, is made with respect to such adjectival descriptions, which can and do vary among experts.
11. This is not an approval sale. Bidders are expected to promptly purchase all lots awarded to them by the auctioneer. Floor bidders are encouraged to carefully examine all lots in which they are interested in purchasing, since NO LOT MAY BE RETURNED BY FLOOR BUYERS, INCLUDING THOSE LOTS WHERE THE BIDDER IS ACTING AS AGENT FOR ANOTHER PARTY, OR BY MAIL BIDDERS WHO HAVE EXAMINED THE LOT PRIOR TO THE SALE.
12. Mail bids will be accepted from those who can not attend the sale in person. Bids for all lots must be submitted in even dollar amounts, or they will be reduced to the next even dollar amount. Successful mail bidders will be awarded the lot at a nominal advance over the second highest mail or floor bid. When identical bids are received by the auctioneer, for a lot, preference is given to the first bid received. A mail bid will take precedence over an identical floor bid. A floor bidder must bid higher than the highest mail bidder to be awarded any lot. The auctioneer reserves the right to refuse any bids, which he, in his sole discretion, feels are not made in good faith.
13. The auctioneer can not be responsible for errors in bidding. Please make certain that you bid on the correct lot and that your bid is the maximum that you are willing to pay.
14. An estimate is provided for each lot. This estimate represents, in the opinion of the cataloguer, the current market value of the lot. Lots may, of course, sell for above or below this estimate.
15. All photographs in this catalogue are of the actual items being sold.
16. Postage, insurance and sales tax, if required by law to be collected, will be added to the invoice for any lot(s) invoiced to successful bidders. All lots delivered in the state of California are subject to applicable sales tax. Individuals purchasing lots for resale must submit an exemption certificate, signed by the purchaser or his agent and recognized by the state of California, with their current resale certificate number or be subject to the sales tax.
17. We reserve the right to require payment in full before delivering any lot to a successful bidder. It is the buyer's responsibility and obligation to have the lots fully insured while in his/her possession. Risk of loss is on the buyer. All lots sent to foreign countries, including Canada and Mexico, will be billed an additional 1/2 of 1% for insurance. The minimum insurance fee is \$5.00. Please send shipping instructions. Normally all lots will be sent via registered mail.
18. In the event a bidder fails to make remittance promptly, auctioneer reserves the right to resell the merchandise and bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid.
19. If the invoice for the auction is not paid for in full, when due, the unpaid balance will bear interest at the highest rate permitted by law until it is paid in full. If the matter is referred to an attorney for collection, bidder agrees to pay all attorney fees, court costs and other costs incurred by Ponterio & Associates, Inc. The courts of San Diego County, California shall have exclusive jurisdiction and venue over any suit initiated by Ponterio & Associates, Inc. to collect past due invoices and the service of process by certified/registered mail, return receipt requested, shall be sufficient to confer "in personam" jurisdiction over bidder.
20. Auctioneer reserves the right to postpone the sale by auction of the property, for a reasonable period of time, as the result of any act of war, natural calamity or significant relevant event, which, in the judgment of auctioneer, reasonably exercised, make it inadvisable to hold the auction as scheduled.
21. Our ultimate liability for any item is the price paid.
22. By bidding in this sale, bidder personally guarantees payment; if a corporation is the bidder, the officers and/or principals of the corporation agree to personally guarantee payment.
23. All bid sheets submitted by mail bidders must be signed. Company bids must be submitted with the signature of a duly authorized agent of such company.
24. Bidding in this sale constitutes acceptance by the bidder of all the forementioned terms and conditions of sale.

INSTRUCTIONS TO NEW MAIL BIDDERS

Bidding by mail permits you to participate in an auction as though you were attending it in person. The procedure is really quite simple. You tell us what you want, and the maximum amount you are willing to pay. We then, as your personal agent, try to buy the items listed for you at the lowest possible price.

The enclosed mail bid form has two sides for you to fill in. The front side provides all the information we will need to register you as a bidder, execute your bids for you and deliver your lots to you if you are a successful bidder. Please answer all the questions that may apply to you. **DON'T FORGET TO SIGN YOUR BID SHEET.**

On the back side are pairs of columns where you may list your bids. After carefully reading the lot description, write down the lot number and the maximum amount you are willing to pay for that lot. Don't forget that a 10% buyer's fee will be added to your actual purchase price if you are the lucky bidder. Continue to list lot numbers and bids for each of the lots you are interested in buying.

LOT	BID
13	150
278	200
379	400
458	600
744	1000

When we receive your bid sheet, we will record your bids at the amount you have authorized us to bid for you, and we will, in addition, note any lots where an increase is authorized if absolutely needed to win the lot. For example, if the sample bid sheet shown at the right were yours, we would enter your bid on lot #13 as \$150. If yours was the highest bid received, you would be the purchaser at \$150. (plus 10%) or perhaps even less. If the second highest bid received on the lot was substantially less, your bid would be reduced to a "normal" increment above that second-highest bid, just as it would be if you were present at the sale yourself to execute your own bids. If you have authorized a percentage increase on the front side of your bid sheet and the bidding by others has exceeded your basic bid, we will then, as your personal agent, increase your bid to the minimum amount necessary to obtain the lot for you. The authorized increase will never be used except when your basic bid is exceeded.

Before you mail your bid sheet, do be sure to check it over to make certain you have bid on the correct lot(s) and that your bids are the ones you are both willing and able to pay for. Enjoy the catalogue, place bids on everything you would like to buy. If time is running out and you feel your bid sheet may arrive too late to be included, you may call our office between the hours of 8:30 a.m. and 5:00 p.m. Monday through Friday, giving us the lot numbers and amount you will pay for each lot, over the telephone. Please make sure you immediately send in your bid sheet for confirmation. Also, you may FAX your bid sheet to us. As your personal agents we wish you every success.

VIEWING OF LOTS

WHAT'S NEW, WHAT'S NEXT, OR NOW WHAT ?

How often have you obtained a particular reference book only to find, within a fairly short time, that quite a bit of it has been surpassed or updated? In numismatics this is quite a common occurrence, especially if dealing with older materials; I don't mean to slam "chronologically challenged" references, but what was the definitive work on a particular subject in the 1890's or even the 1930's may be very obsolete. This is not always the case, however, but research does go on with new coins being listed and with revised interpretations of varied material. This is especially true in our current day and age as more numismatic books have probably been produced in the past 25 years than in the preceding 300. With that in mind, I'd like to offer a few instances of how "times change".

One of the great works on ancient Greek coins, in my opinion, is "Historia Nummorum" by Barkley Head, first published in 1885 and updated in 1910. If you collect or are otherwise interested in ancient Greek coins, you should own this book. But, one example on how new research or findings can change the views of certain coins can be shown in this reference. In the section on Judaeian coins, Head has an interesting series of coins attributed to Simon Maccabaeus (143-135 BC) and John Hyrcanus II (135-104 BC). By the time the British Museum's "Catalogue of the Greek Coins of Palestine" was released in 1914, these particular coins had been reattributed to the First Jewish Revolt (66-70 AD); this reattribution has been reaffirmed time and again by new research and archaeological work, one notably instance being at Masada. How does this change, along with others, affect the overall worthiness of "Historia"? Not enough to warrant not having the book and using it as a general reference, as long as the user is familiar with more recent scholarship.

Margaret Thompson produced a wonderful reference book, "The New Style Silver Coinage of Athens", in 1961. This book has tremendously detailed information on the coins, various design elements and varieties, the magistrates who issued them, and a chronology and dating of the various issues. Unfortunately, it was not long after this book was released that new research altered the dating of the entire series, although the other material has been largely reaffirmed; this worthy reference contains a wealth of information and should be owned by anyone even remotely interested in the coinage of Athens.

One problem area of Ptolemaic Egyptian numismatics has been, and still is for many of us, the attribution of coins of the first three Ptolemys to certain mints. A recent work, based on the finds of a large hoard of coins in Meydancikkale, Turkey, has indicated the need to change the assignment of coins with certain markings to mints other than those accepted earlier. If a similar hoard is uncovered in the near (or not so near) future, there may be further changes.

In the area of Spanish colonial coinage there have been several areas where new research and finds have greatly altered previously accepted findings and determinations. Up until a few years ago 4 Escudos coins of 1750 from the mint of Lima were unknown. A similar coin from 1749 is known and there was evidence that they had been minted during 1750, but did they really exist? The answer became "yes" when a small quantity of these coins were recovered from the "Nuestra Señora de la Luz" which sank in 1752 shortly after sailing from Montevideo, Uruguay, for Spain. Evidently the entire production of these particular coins for 1750 was placed in containers and sent overland from Lima to Montevideo for eventual shipment to Spain, and all were lost when the ship sank.

Another area of change in Spanish colonial numismatics has been in the assignment of certain early silver "cob" coin issues from the mint of Lima, Peru, to Potosi, Bolivia (at the time of issue, part of the colony of Peru). Is this a major disaster to collectors of this material? Not really, but it certainly adds some interest.

In this same area of collecting (as well as others, to be sure), it is not unusual for previously unpublished dates and/or assayers to show up for a particular mint; does this mean that the reference books available were defective or poorly prepared when they were released? Certainly not as a general statement, as the authors can include only the information they have at the time. If you are interested in dates, overdates or date-assayer combinations which are not published, you can have a great time reviewing the "Latin American Swamp Hoard" of Potosi and Lima 1 Real coins as well as the other "cobs" in this catalog; there are a few such items available.

Another instance of the "Oops" factor (or other such words of your choosing) relates to a tremendous work by James Haxby, "The Standard Catalog of United States Obsolete Notes, 1782-1866. This 4 volume work appeared in 1988 after many years of research, as a tremendous compilation of U.S. "obsoletes", and is a wonderful reference book. Unfortunately, in one regard (and fortunately in others), within 3 years of the release of this work the American Bank Note Company sold it's archival materials, including a vast number of note proofs and/or specimens which had not been known to Mr. Haxby or the many people who were working with him on this project. I understand that the new material will be included in an updated edition of the Haxby work, which will make it even more useful.

Authors rely greatly on the research of others, adding their personal knowledge and insights. Unfortunately, early research, official documents, and insights may be flawed. Just because the U.S. mint records indicate that no half dollars were struck during 1796 but that dollars were struck during 1804 doesn't make sense unless one understands "the rest of the story"; we know there are 1796 dated halves but current information says that 1804 "1804" dollars do not exist. However, please remember that this last is based on today's information; someone may open an old, old box in a musty cellar tomorrow and...

The following 19 lots of "Cedulas" or "Vales" from Guatemala represent an interesting collecting challenge. Issued during the last part of the 19th century (dated pieces are all 1899 or 1900), these are, as far as we have been able to determine, unlisted in any reference. This offers a wonderful means of expanding an existing collection of Guatemala local material or starting one.

BOLIVIA

1080. 1/4 Real, ND. Assayer R (Rincon). Philip II. Calico-672 (Lima); Sellschopp-24 (Lima) with P-R flanking crowned oval with elaborate early style castle within it. Peripheral legend "(PH)ILIPPVS DG ISPANI"; Reverse: Small upright Sevillian lion with "ET INDIARVN(sic) REX". Light brown tone over porous surface. EX: Paul Karon collection. **RARE.** Boldly detailed, light corrosion, **VERY FINE.** [350.-500.]

1081. 1/4 Real, ND. Philip III. Unlisted type. Crowned oval, with castle within, surrounded by 80% of a circle of dots (not squares as on Philip II pieces). The castle is unique to this denomination and is most similar to Sellschopp's very late Philip II style PB2. Important is the peripheral lettering "S III D" indicating Philip III for whom nothing even remotely similar has been reported. The reverse is unique to all listed cob cuartillas in that the rampant lion is huge and not within an oval. This lion is like Philip III's as found on Sellschopp types PBx2, PB10 and PR4. The periphery has "IND/AR (M REX)" in small letters. The lion and castle styles indicate minting around 1600-1605. EX: Paul Karon collection. Light encrustation, nearly **VERY FINE**. [350.-500.]
1082. 1/4 Real, ND. Philip III. Assayer (B). Issue related to Sellschopp-329 with a peculiar tiny standing lion in a crowned oval encircled by dots (rather than squares as on Philip II); Reverse: Castle is considerably off-center. About 4 known of this unusual style which is the only cuartilla Sellschopp attributed to Philip III. EX: Kagin's 1983 ANA sale, #1109; EX: Paul Karon collection. Light corrosion, dark, **FINE-VERY FINE**. [350.-500.]
1083. 1/2 Real, (16)52-E. Calico-957 (LIMA). "PL V SV/L T RA" in two lines among pillars. missing from Karon collection. **RARE**. Crude strike, **FINE**. [350.-500.]
1084. 1/2 Real, (1)726-(Y). KM-27; Calico type-232. Philip V monogram, but date appears to be 1726. Crude strike, **FINE**. [30.-50.]
1085. 1 Real, ND. Assayer L. Philip II. Calico-613 (Lima); Sellschopp plate coin #60 (Lima). Bold strike. Holed, **VERY FINE**. [125.-175.]
1086. 1 Real, ND. Assayer T. Philip III. As Calico type-117, but assayer's initial and mintmark to the right of shield. Sellschopp-unlisted. **VERY SCARCE**. Repaired hole, tooled, **FINE**. [80.-120.]
1087. 1 Real, (1)630-(T). Calico-872; Sellschopp-474. Crude strike, **FINE**. [75.-125.]
1088. 1 Real, (16)97-CH. Calico-637. Sellschopp collection plate coin #823. **VERY RARE**, one year assayer; assayer marks visible in two locations. Crude strike, **FINE**. [300.-400.]
1089. Real, (1)725-Y. Luis I. KM-28; Calico-36. Crude strike, **FINE**. [75.-125.]
1090. 2 Reales, ND. Assayer C over effaced B. Philip II. Calico-517 (La Plata); Sellschopp-unlisted. The Sellschopp collection had a specimen with assayer's initial in the normal location. Coinage from this assayer has been re-attributed to the Potosi mint. **VERY RARE**. Light corrosion, **VERY GOOD**. [200.-300.]
1091. 2 Reales, (16)18-T. Calico type-103 (unlisted date); Sellschopp-unlisted assayer for this date. Top of date is unstruck. Crude strike, pierced, **FINE**. [150.-225.]
1092. 2 Reales, (16)28-(T). Calico-738; Sellschopp-419. Very crude strike. **GOOD/FINE**. [80.-120.]
1093. 2 Reales, (1)634-(T). Calico type-146. All denominations of this date were missing from the Sellschopp collection. **VERY RARE**. Clear date. Uneven strike. Pierced, **FINE**. [300.-400.]

1103. 4 Reales, (1)736-E. Llama shaped. 15.41gms. As Calico-956, but strike on a planchet shaped as a llama. A highly unusual example of the peculiarly-shaped emissions from this mint. Large protrusions form the llama's head and tail; the head was struck first, then the body was boldly struck without doubling. Of greater numismatic importance than the highly sought heart-shaped strikes. **EXTREMELY RARE** possibly **UNIQUE**. Unholed, 2 bold dates. **CHOICE VERY FINE**. [10,000.-15,000.]
1104. 4 Reales Royal Presentation Strike, (1)749-Q. 12.95gms. As Calico-375 (but a Royal strike, unlisted in 4 Reales for Ferdinand VI). A 1696 HOARD OF PERUVIAN 1 REAL COBS

The 1 Real "cobs" in this section comprise the major portion of what may be called the "Latin America Swamp Hoard". These coins were recovered from a swampy area in Latin America during 1994, and are the "pick" of the find. In some ways, this hoard is similar to the "Panama Hoard" which we offered in our October 1992 Long Beach auction in that none of the coins were dated after 1696, indicating possible concealment at or shortly after that date.
